"NO BROKEN PACKAGES"

TECHNICAL TIPS- Any paper curl that might occur due to heat in a copier or laser printer can be minimized by placing the stock in a moisture barrier wrap, such as a plastic bag, immediately after printing until the stock has cooled to room temperature.

DESKTOP AND MEDIUM SPEED LASER PRINTERS: Feed through manual tray. Use paper setting such as "heavy paper" for best toner adherence.

HIGH SPEED LASER PRINTERS: For best feeding results, use the belt/friction feed loading tray and the top delivery tray, use the appropriate weight setting for best toner adherence and feeding.
